

The Student Millionaire Minute #1 of 10 – Your Decision to be a Millionaire

If becoming a Millionaire is on your list of things to do, it's good to know that all self-made Millionaires start the very same way. They just make the **Decision** to be one and they start thinking about it.

Most people think that to become a Millionaire you need special connections, or a lot of money, or you need to be super smart. Not true.

You just need to **Decide** for yourself that you are going to be a Millionaire and start thinking about it.

And once you start asking yourself the question “How can *I* make my First Million Dollars?” you start getting ideas, you start meeting people who can help you, and you start moving yourself in that direction.

That's it. Just **Decide** that you will be a Millionaire and see what starts happening to you in your life.
