

## **The Student Millionaire Minute #8 of 10 – Believe in Yourself**

**Believing in yourself** is the one critically important attribute that makes all success possible, whatever that is for you!

You are smart enough, you are talented enough and you are resourceful enough to accomplish whatever goals you set for yourself. You just have to always **Believe** in yourself! It's the glue that holds it all together.

**Believing in yourself** means you overcome all the self-doubts that come with your personal **Goals**; self doubts like “Can I really do this?” “Is this even possible for me?” “Am I smart enough to do this?” And again, the answers are yes, yes and yes.

**Believing** in yourself means you don't let your friends make your **Decisions** for you. You make your own **Decisions** based on what's right for you. You **Believe** in yourself enough to think for yourself.
